

Kentucky Academic Standards Addressed By Zoo Program

ANIMAL DEMONSTRATION — REPTILES AND AMPHIBIANS

Program description:

Is it a reptile? Perhaps it's an amphibian! How can you tell the difference? This program will help your students learn the differences and why these animals are important in our world.

Kentucky *Core Content for Science Assessment* standards addressed by this program:

EARLY PRIMARY

Subdomain: Biological Science

Organizer: Unity and Diversity

Standards:

- SC-EP-3.4.1. Students will explain the basic needs of organisms.
- SC-EP-3.4.3. Students will describe the basic structures and related functions of plants and animals that contribute to growth, reproduction and survival.
- SC-EP-3.4.4. Students will describe a variety of plant and animal life cycles to understand patterns of the growth, development, reproduction and death of an organism.

Subdomain: Unifying Concepts

Organizer: Interdependence

Standards:

- SC-EP-4.7.1. Students will make predications and/or inferences based on patterns of evidence related to the survival and reproductive success of organisms in particular environments.
