

TEAM BUILDING

The modern workplace is a jungle! How do we keep our teams productive, engaged and break down barriers that impede communication?

We offer several fun, interactive learning experiences for organizations. Add one of these to your meeting or evening event.

OPERANT CONDITIONING *Suggested group size 15-50* **\$500 (30-40 minutes)**

Let our team of experts show you how we teach our animals to follow commands!

This interactive experience just might teach you a few things to help your team.

Desired outcome: Build better communication, Increase Patience, Hone Observation Skills, Focus on Listening and Create an Expectation of Positive Reinforcement!

ANIMAL ENRICHMENT *Suggested group size 15-75* **\$500 (30-40 minutes)**

Our animals are provided various types of enrichment to keep them engaged, curious and healthy. Just like us, they need motivations and experiences. You can be part of creating these healthy stimuli while working on your own teambuilding skills.

CRITTER BOX: Predator/Prey - Teams of 4-6 people each. Choose an animal to research and learn about. Then create the “critter” box as an enrichment item that our animals may enjoy and help stimulate their natural behaviors in the wild.

All supplies are provided, as well as a Zoo Enrichment Volunteer who will assist you in completing the project. Final items are presented to the Enrichment Team for approval and animal use.

SCAVENGER HUNTS (self-directed)
Available for daytime and evening events

No Charge (1-2 hours)
