

Rhino Rembrandts

Support rhino conservation by purchasing original works of art by our very own "Rhino Rembrandts"!

These one-of-a-kind masterpieces make wonderful gifts for rhino enthusiasts & nature-lovers alike, and are perfect, unique gifts for that "person who has everything." Ambassadors of three rhino species— Sumatran rhino, black rhino, and Indian rhino—call the Cincinnati Zoo & Botanical Garden home. They are all in danger of extinction in the wild.

The Zoo and its animal care staff are extremely dedicated to rhino conservation as well as the care and well-being of the animals we house. Enrichment is a key element to the high quality of care provided to these intelligent animals. Using their semi-prehensile lip, the rhinos enjoy stimulating painting sessions with their dedicated caretakers. Proceeds from painting sales go directly to rhino conservation. Your generous contribution will help ensure that all rhino species and the wild places where they live will be ours to share for generations to come.

For questions, email renee.carpenter@cincinnati-zoo.org

Details:

- You will receive a painting with a picture of the artist (all non-matted)
- Personalize your painting by choosing paint & canvas colors as well as which artist completes your work of art!
- Paint may contain foreign materials, such as soil, hay, or treat items, etc., provided during painting sessions.
