SITE
- Prior to construction, the entire area was a 400 car, asphalt parking lot.
- Now approximately 90% of the site is exhibit space or landscaping beds.
- Only adaptable or non-invasive Plants were used.
- The Giraffe Roof has a 2400 square foot green roof above it.
- Painted Dog roof as a 3’ deep planter that can accommodate large plants and trees.
- All water elements are supplied by a 400,000 gallon underground storage tanks and are recycled, filtered and reused so that no water leaves the site.
- All storm water is collected and stored on site for reuse.

MATERIALS
- Painted Dog Exhibit ~
  - Zero use of hazardous plastics and other “red listed” materials.
  - Use of FSC (Forest Stewardship Council) or reclaimed wood.
- 98% of Construction Waste was diverted away from local landfills.
- 56% of Materials used came from local sources.
