

It's a Bug's Life Experience Details

Being a zookeeper takes careful preparation. Here are some things you need to know so that you can be prepared to work side by side with a member of our Insectarium Team:

1. Participants must be in relatively good physical condition as this is a high energy program providing the opportunity to experience the work of a keeper.
 2. Communication between you and your guide is crucial.
 3. You must be attentive. Although the animals in the exhibits are comfortable working with their human caregivers, they are still wild animals and their behavior can be unpredictable.
 4. Any special needs should be discussed with the program manager prior to the program via contact information provided below.
 5. All participants are required to complete and sign a liability waiver.
