

# Color the Rainbow (1-2)

Click Here to upgrade to Unlimited Pages and Expanded Features

By coloring the colors of the rainbow at the zoo, we will discover the similarities and differences between animals, as well as discovering how physical traits, such as color, influence their survival.

## I Spy the Color Red...

Draw a picture of the animal, placing a dot in the area where it is the color RED

---

---

---

Name of Animal:

Does having this color on its body help or hurt its survival? Does it help it communicate? Or hide?

---

---

---

Can you find any other animals at the zoo today with red on them?

---

## I Spy the Color Orange...

Draw a picture of the animal, placing a dot in the area where it is the color ORANGE

---

---

---

Name of Animal:

Does having this color on its body help or hurt its survival? Does it help it communicate? Or hide?

---

---

---

Can you find any other animals at the zoo today with orange on them?

---
