# Conservation Connection

## *In Gorilla World...*

1. What is the species conservation status of western lowland gorillas?
2. What is the mineral being mined in central Africa for cell phones and many other electronics?
3. Explain how recycling old cell phones help gorillas in the wild.

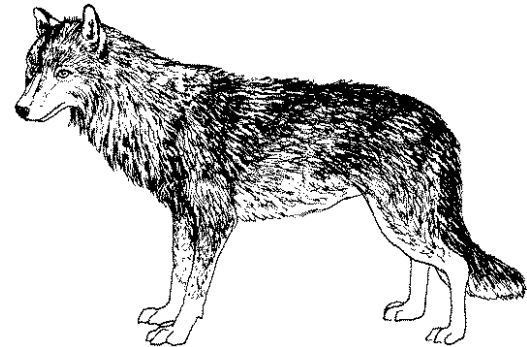

## *In Manatee Springs...*

4. Find the Manatee Conservation Poster computers and make a poster. What would you like to tell people about manatees?
5. Write the message you created on your manatee poster in the box below.

*In Wolf Woods...*

6. How does the Native Americans' view of wild Mexican gray wolves differ from the view of some ranchers?

*In Wildlife Canyon...*

7. What is the Visayan Warty Pig's IUCN status and what AZA program is the Warty Pig a part of to help its continued survival? \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

8. Explain what is being done to bring Przewalski's horses back from the brink of extinction.

*In Go Green Garden....*

9. Name three different examples of sustainable energy resources featured in the Go Green Garden. Which type does the Cincinnati Zoo & Botanical Garden use the most?

10. Find the solar panel kiosk (either near the Vine Street Entrance or in the Go Green Garden).

How much energy has been generated by the solar panels today? \_\_\_\_\_

How much energy has been generated to date? \_\_\_\_\_

11. Draw a diagram showing the five steps it takes to capture sunlight and convert it into useable energy:
