

Primate Antics

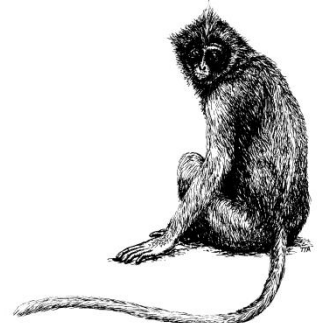

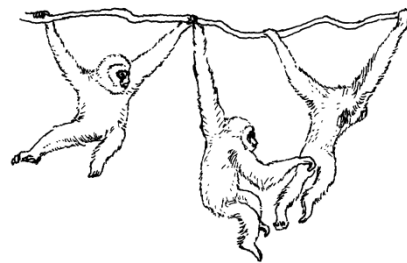

Use basic observation and counting skills
to spot primate behaviors

Location in Zoo: Any primate exhibit

Materials: Pencil

Activity: Observe a primate exhibit and see if you can check off every primate behavior in the list below. Then count all of behaviors you found and add them up!

- Reaching for something
- Pulling apart or peeling food
- Scratching
- Grooming another primate
- Hitting or pushing another primate
- Throwing something
- Playing with a toy
- Hanging from a branch

Total: _____
