

# Zoo's Best Perennials for Pollinators

We are pleased that the following locally grown perennials will be available at regional independent garden centers in 2017. These plants have been chosen for dependable garden performance and for their value to the many butterflies, moths, honeybees, and other pollinators who depend on them for habitat and sustenance. Look for them in specially branded Zoo's Best pots! A portion of the proceeds will support additional trialing at the Cincinnati Zoo & Botanical Garden.

Agastache 'Blue Fortune'  
Anemone 'Honorine Jobert'  
Arkansas Bluestar  
Aster 'Jindai'  
Aster 'October Skies'
