

Wild Encounters Internship (Unpaid)

Wild Encounters Interns have the opportunity to be part of our Visitor Engagement effort to encourage our visitors to get “close enough to care.” The Wild Encounters team can be found throughout the park doing animal demonstrations, staffing our feeding stations, and taking animal walks. The team is made up of about 50 staff, volunteers, and interns that carry out the mission of the Zoo, and “inspiring every visitor with wildlife, every day.” Wild Encounters handle animals from cockroaches to snakes to armadillos, and have lots of fun along the way. Interns will gain interpretive skills, animal handling skills, and valuable experience. If you are pursuing a career in informal education in a Zoo setting, this internship is a great start.
