

Plant for Pollinators

The Cincinnati Zoo & Botanical Garden has been awarded several grants to increase pollinator habitat in the community.

4,000

Registered gardens planted since 2019

North America hosts nearly **3,600** species of native bees.

18

Bee Our Partners in 2024!

40 pollinator kits sold in 2024!

Cincinnati is the world's only arboretum within a Zoo to achieve Level IV accreditation through ArbNet—a program with the only global initiative which officially recognizes arboreta.

Gardens registered in **37 STATES AND TWO COUNTRIES**

56 Pollinator Watch Volunteers (Citizen Scientists) logged over 488 hours and collected 5,532 data points observing pollinators.

OVER 354 PEOPLE

reached through pollinator-focused horticulture talks in 2024

TAKE THE NEXT STEP!

Upload pollinator data that you find by going to <https://www.inaturalist.org/> and setting up an account.

"A garden is like a river. It flows, it's always moving, and it's never the same. It never reaches anywhere other than in this moment."

—Monty Don

15,870

visitors at the Monarch Festival event at the Zoo in 2024

Over **85%** of the world's flowering plants rely on pollinators.

"I registered my gardens a few years back and proudly display my sign."

—Margie S., P4P Facebook Page
